INDIAN CREEK WATERSHED MANAGEMENT AUTHORITY

SOCIAL ASSESSMENT SURVEY RESULTS

Media Invited To Attend September 24th Event

There has been a recent string of events informing the public about the watershed, water quality issues, and flooding. Tomorrow, September 24th, the Indian Creek Watershed Management Authority will provide a different look into this topic by focusing on what issues are important to urban residents and farmers in the watershed.

The social assessment results from the survey will be presented by the Vernon Research Group, with a public input session at the end of the event. The event is from 11:30 am to 1:30pm in the Oaks Room at Lowe Park, 4500 10th Street in Marion. The survey results will be presented from 11:30 am to 12:15 pm.

This is the third event the Indian Creek Watershed Management Authority has presented in collaboration with other watershed and water quality groups to generate ideas, plans, and actions to protect our communities and the Dry, Indian and Squaw Creeks.

For more information please view our event agenda at tinyurl.com/nu3jrly, or to RSVP for the event please email jennifer.fencl@ecicog.org.
